

Kingdom of Saudi Arabia

- Dow Saudi Arabia was established in 2007 and represents Dow's first wholly owned entity in the Kingdom.
- In June 2016, Dow became the first foreign entity to receive a trading license from the government of Saudi Arabia, allowing 100% ownership in the country's trading sector.
- R&D at the Dow Middle East Innovation Center "MEIC" at KAUST in Thuwal—with a dedicated building opened in 2018—focuses on energy efficiency and sustainability across industries such as oil and gas, coatings, construction and manufacturing processes.
- Sadara, Dow's joint venture with Saudi Aramco, represents the largest foreign investment in KSA's petrochemical sector.
- From 2017 to 2020, Saudi Arabia has been among the Dow countries across Europe, the Middle East, and Africa that have received certification from the Top Employers Institute 'best places to work'.

Our presence in the Kingdom is characterized by landmark partnerships and a commitment to positively impact the local economic landscape while contributing to the Saudi government's Vision 2030 efforts. This includes helping to transform the country into a key player in the global petrochemicals industry and a knowledge-based economy.

Our Presence

- **Sadara Chemical Company:** In 2011, Dow entered into a joint venture with Saudi Aramco to build a world-scale integrated chemicals complex in Jubail. Sadara, which achieved full commercial operation as of September 2017, comprises 26 manufacturing units, several of which constituted "mega projects" in themselves. The joint venture complex is one of the world's largest integrated chemical facilities and the largest ever built in a single phase. Sadara is contributing significantly to Saudi Arabia's industrial diversification, and the product portfolio is adding value chains to the Kingdom's vast natural resources.

The Sadara Mixed Feed Cracker (MFC) is the only one of its kind in Saudi Arabia, cracking both ethane gas and naphtha liquid. It enables Sadara to produce a range of plastic and chemical products.

More information about Dow in Saudi Arabia can be found by visiting <https://sa.dow.com/> or by contacting the Dow Khr Office: +966 13 806 87 57 or +966 13 806 87 21.

- **Juffali Partnership:** In 1976, Dow entered the Saudi market through a distribution partnership with E.A. Juffali & Brothers, and in 1984, Dow and Juffali entered into their first joint venture Arabian Chemical Company (Polystyrene) (known as "ACCPS"), producing STYROFOAM™ brand insulation in Jeddah. In 1993, a second joint venture was formed, The Arabian Chemical Company (Latex) (now known as "ACCLX"), to produce latex in Dammam. In 2012, Dow and Juffali inaugurated the Arabian Chemical Polyurethane Systems House "ACCP", a business alliance to produce polyurethane systems for various applications.
- **Saudi Acrylic Monomer Company "SAMCo":** In 2009, Dow assumed a joint venture stake in SAMCo with Tasnee Sahara Olefins Company. Located in Jubail, the project achieved commercial operation as of July 2014 and is the first acrylic monomer production facility in the region. The facility manufactures downstream products for local and regional markets.
- **King Abdullah University of Science and Technology "KAUST":** Dow is a founding member of the KAUST Industrial Collaboration Program, which serves to commercialize research into practical applications. Dow is supporting the University's vision to drive economic development by investing in Research and Development with strategic relevance to the Saudi market. The Dow Middle East Innovation Center "MEIC" is located at KAUST and is currently developing innovative, science-based solutions for modern-day challenges in the energy, energy efficiency, and infrastructure industries. Also within the MEIC is the Digital Marketplace Center "DMC". The DMC innovates digital solutions to meet business needs and support regional growth while enhancing the customer experience.

A Community Partner

Dow actively supports the social and economic aspirations of communities where we operate. We enable their success by partnering with local organizations that can deliver on mutually developed objectives that touch on education, training, entrepreneurship and sustainability.

In December 2018, Dow, the Royal Commission, and the Saudi Food Bank (Eta'am) announced the winners of a school program to tackle food wastage and promote healthy eating. The program is part of Dow's local and global collaboration to promote sustainability.
